

LISC CHICAGO FINANCIAL OPPORTUNITY CENTER

HELPING YOU EARN, KEEP, AND GROW HEALTHY FINANCES

FINANCIAL OPPORTUNITY CENTER INTEGRATED SERVICES

The Financial Opportunity Center helps families become more financially secure in three critical areas: employment and/or increased wages; improved financial condition; and improved access to public benefits.

Our three-pronged approach to financial stability includes working with clients to find a better job; identify and apply for public benefits; and act on financial counseling by establishing a household budget and balance sheet, building credit, and making connections to mainstream financial products

The FOC utilizes a coordinated delivery of integrated services in coaching clients to achieve successful financial outcomes. Clients have access to a network of coaches to assess their strengths, build and create tools to establish goals, and assist clients with realizing their vision for economic stability.

Our integrated services include:

- Career Assessment, Training and Placement
- Financial Coaching/Income Support Services
- Job Readiness Training/Employment Coaching
- Education/Employment Placement
- Digital Literacy Instruction and Access
- Supportive Services
