### Description of Issue & Need

**Yes. Refer to page 2 paragraphs 2 and 3. See goals on page 6.**

How many years back?

**It's up to your discretion.**

### Program Design & Implementation

This seems to be done for us, correct? Do we need to add anything else?

### Implementation Schedule with Deliverables or Milestones

This is for 6 months?

**Correct: January 1, 2020 – June 30, 2020**

What milestones will MFS be asking us to meet that I should include?

**We are asking you to lay out your schedule for implementation. You tell us the milestones.**

### Evaluation and Data Collection

MFS is creating the data system?

**Yes. REDCap.**

Do you expect to see all the elements of the model included in the RFP in this particular proposal/budget, or are you considering this a complement to what we are already doing? In other words, let's say that we already have enough case workers, but want to hire outreach workers with this money; would it be ok if we don't pay for all the elements of the model with this money?

**Yes, include all the elements of your related violence intervention work in the proposal/budget and use the narrative to distinguish how this particular grant is additive to existing violence intervention work.**
